WEATHER—For Kentucky

HOPKINSVILLE KENTUCKY, SATURDAY, NOVEMBER 25, 1916.

VOL. 37—No. 232

EDITORIAL COMMENT.

The Trigg county jail has been empty for thirty days.

Evangelist Stough got \$4,544.76 for his meeting in Evansville.

The General Association of Baptists will be in Paducah next year.

L. C. Menard, a somnambulist, walked out of a hotel window in Paducah, and was fatally hurt.

Another half cent a pound has been added to the cost of print paper, which is now 7 cents with freight added.

If Villa has been located, the Carranza bunch are fools not to want Pershing to go and get him.

O. D. Bleakley, a new Congressman from Franklin, Pa., went to Washington the other day in his own aeroplane.

A coal famine at Greensburg, Ky., has run the price of coal up to 30 cents a bushel, from the one cent that arrived in ten days.

President Wilson's message to Congress contains only 2,000 words. Railroad legislation is pointed out as the most pressing problem.

Federal Court at Paducah Monday was a brief affair, finished in one day. A. M. Henry, of this county, was foreman of the grand jury. Persons indicted were tried the same day.

Judge Hook's decision at Kansas City makes the government hurry up to affirm the constitutionality of its new eight-hour railroad law. The railroads have drawn first blood.

President Wilson's reply to Mr. Hughes' telegram was: "I am sincerely obliged to you for your message of congratulation. Allow me to assure you of my good wishes for the years to come."

Gen. Funston, who had the ability to rise from a soldier of fortune to the head of the army on the border, doesn't appear to have much common sense, and still less respect for religion.

Investigations in both Chicago and New York are hot on the trail of the food sharks who have been caught with the goods. The plot to boost prices will be laid before the grand jury at Chicago.

Congressman Kelly, Democrat, of the 30th Pennsylvania, has pulled in by the soldier vote. Democrats have 214 with a good chance at two more where recounts are in progress. They claim one independent and one prohibitionist will make the necessary 218 to organize the House.

PAIR WEIGHED 55 POUNDS.

Oak Grove, Ky., Nov. 24.
Editor Kentuckian:

I noticed in your paper yesterday where several farmers' wives sold some large turkeys for a goodly sum. Won't you make room for two more nice bronze turkeys? Last week I sold in a bunch of turkeys, a gobbler that weighed 33 lbs. at 22c bringing \$7.26 and a turkey hen weighing 23 lbs. at 22c, bringing \$5.06. How will this class with previous records this year? Thanking you very much for the kindness, I beg to remain,

Very Respectfully,
MRS. W. H. SUMMERHILL.

Born at Fairview.

Cadiz, Ky., Nov. 23.—William Newton Carpenter, after an illness of some time, is dead at his home six miles northwest of here. He was 57 years old, and was born at Fairview, Ky., in the same house in which Jefferson Davis was born.

Here For Operation.

Mrs. Freeman, of Cadiz, was brought to the Jennie Stuart Hospital yesterday afternoon for the purpose of having an operation performed.

COURTESY COMES LATE

G. O. P. Candidate Extends Felicitations and Hope for Successful Administration.

WILSON HAS NO COMMENT

Hughes Says He Wanted to Be Sure of California Official Count Before Acting.

Lakewood, N. J., Nov. 22.—Charles E. Hughes, republican candidate for president in the recent election, tonight sent to President Wilson a telegram congratulating him upon his re-election.

In his telegram Mr. Hughes said: "Because of the closeness of the vote I have awaited the official count in California and now that it has been virtually completed, permit me to extend to you my congratulations upon your re-election. I desire also to express my best wishes for a successful administration."

NO RECOUNT, SAYS WILLCOX.

New York, Nov. 22.—William R. Willcox, chairman of the republican national committee tonight issued the following statement in reference to Mr. Hughes' telegram to President Wilson:

"Having conferred by telephone during the day and late this afternoon with the republican state committee and the republican national committee in California, I am informed that the official canvass of the vote has been so nearly completed that no change will result from the few precincts not counted in the returns thus far compiled.

"This means that the majority for the Wilson electors in California ranges from about 1,200 to 3,800 and that this is the final result of the canvass for which we have been waiting. So far as any recount is concerned, the national committee is not advised that there are sufficient grounds to call for such application."

SUGGESTED NOTICE

Directory of Kentucky Breeders of Pure Bred Live Stock.

The State Department of Agriculture is preparing a revised edition of a "Directory of Kentucky Breeders of Pure Bred Live Stock," and would appreciate anyone who desires his name to appear in same to write the Department direct.

This little bulletin has proven a popular one and is mailed not only throughout Kentucky, but to other States as many requests are continually coming to the Department for same. It has served to bring before the public where the best foundation stock can be found in this State, hence the great necessity of being accurate as possible in its compilation and it is the Department's desire to omit no name in this revised edition of any breeder of pure bred live stock in the State. If any breeder who has not already been in communication with the Department of Agriculture in regard to this will notify Mat S. Cohen, Commissioner of Agriculture, Frankfort, Ky., giving name, address and kind of pure bred stock he raises, his name will be included in this directory, thus enabling the Department to make a complete and up-to-date revision of same.

Booked For Plums.

Paducah, Ky., Nov. 24.—Luther Graham has been selected for chief of the fire departments, according to a reliable informant. Graham will succeed James Eaker, and Glenn will succeed Jack Slaughter, who will be reduced to a captain. Roy Hurt, president of Central Labor Union, is said to be the choice for marketmaster, Henry Bailey for day police captain and Charley Clark for night police captain. Bailey is present day captain and Clark is a city detective.

VILLA IS REPULSED

In a Fierce Attack on Chihuahua Thursday Night.

FIGHT LASTED 7 HOURS

Field Guns Mounted on Hill Outside of City Mow Down Bandit Attacks.

El Paso, Nov. 24.—Francisco Villa withdrew surviving forces in defeat from Chihuahua city at 6:15 o'clock last night after a battle of seven hours, during which he made fruitless attempts to carry Gen. Trevino's protecting works by assault, according to reports from Juarez.

Three separate attacks have been made upon the Carranza forces by the Villa forces from the south, according to Gen. Gonzales. These attacks have been repulsed according to the same source and the Villa losses have been extremely heavy, the message says.

Gen. Trevino's artillery which carried the brunt of the attack, did heavy execution in the ranks of the bandits, according to the message. Gen. Gonzales said he had received from the state capital. Many Villa prisoners were taken by the Carranza forces when a detachment of infantry and cavalry made a sally from the city, he said.

Carranza's officers here are optimistic regarding the outcome of the battle at Chihuahua city. The only cause of worry to them is the fact that Gen. Trevino's ammunition supply for small arms and machine guns is limited. However the supply of artillery shells is ample, it is said here, to keep the bandits away from the city.

COLLISION IN THE DARK

Between an Automobile and a Buggy on Seventh Street.

A collision occurred on East Seventh street Wednesday night between W. R. Brumfield's automobile, driven by himself, and a buggy containing Tobe and Bob Morris. Mr. Brumfield was coming towards town and the rain on the windshield obscured his vision. Bob Morris was thrown against the windshield, which was broken. He had a rib broken and was cut about the face. Tobe Morris sustained cuts and bruises but was less seriously hurt. Mr. Brumfield was bruised and cut on the face. The horse was knocked down but not much hurt. The car was slightly damaged.

THANKSGIVING SERVICES.

Will Be Held at Westminster Next Thursday.

Union Thanksgiving services will be held as usual in Hopkinsville, next Thursday at 10:30 o'clock. The services will be at the Westminster Presbyterian church and the sermon will be preached by Rev. Lewis Powell, of the Methodist church.

Squire's Head Blown Off.

Newport, Ky., Nov. 24.—Thos. J. Carnes, 59 years old, Magistrate of Pendleton county, was accidentally killed today. He had started to go hunting and in passing through the gate of his residence the trigger of his shotgun caught on the gate and the full charge blew off the top of his head. Carnes was a breeder of fine cattle, which won prizes at the State Fair, and fairs in Campbell and Pendleton counties and at Lexington.

THE CREED OF THE SPECULATOR IN FOOD.

This is an interesting and no doubt a true story which comes out of Chicago in connection with the investigation that the government is making of the present high prices of foodstuffs.

Certain speculators in farm products, it is said, have purposely permitted trainloads of sound stuff to rot in the fields or be condemned and destroyed as unsound after having been removed from the place of production. This, it is alleged, was done in order to reduce the visible supply and increase the price on the stock in storage to an extraordinary degree.

It is also found that millions of dozens of eggs have been bought up by speculators at prices, from 16 to 24 cents a dozen and deposited in cold storage warehouses, from which they are now being sold at 40 to 50 cents a dozen.

Obviously, it would be difficult for the government to pass a law that would seriously interfere with the freedom of buying and selling in the open market, and it would no doubt be unwise to do this even if it could be done and stand the tests of the courts, and yet it is evident that in the course of time the government will be compelled to resort to some means to prevent the speculator from levying outrageous taxes on the public.

When one remembers that the average family income in the United States, in normal times, is about \$800 a year, and that hundreds of thousands of families must live on from \$500 to \$600 a year, the burden which this speculation in food places upon the people can easily be appreciated by those who have anything like adequate knowledge of the hardships that excessive food prices impose upon the ordinary consumer.

The practice of depositing foodstuffs in cold storage also offers a problem difficult to solve. The cold storage warehouse, primarily, is a blessing to mankind, and yet, unfortunately, like many other great gifts to humanity, it may be utilized by evil men to the detriment of all. By means of the cold storage warehouse, foodstuffs of all sorts, when plentiful, may be preserved until the surplus is consumed, and, properly managed, the cold storage depot could be so used that the price of food would be lessened rather than increased, because through it the volume which may be carried beyond the point where it would spoil may be limited only by the capacity of the storage plants.

She conscienceless speculator, however, aided by the cold storage process, and with unlimited means at his command, buys up the surplus farm and garden stuff, eggs, fruits, fowls and holds them until scarcity compels the consumer to offer unheard of prices for these things. The rich and the comfortably well-to-do know little of the hardships which this swindling process imposes upon the humble wage earner and the small salaried man, and the speculator is permitted to enrich himself at the expense of victims whose complaints are not far reaching.

This condition, however, cannot endure forever. The people usually find ways to correct positive abuses, even though it may be necessary to suspend temporarily some of the fixed rules and laws of trade, and if the government cannot find some remedy in existing laws, other means will be discovered and applied. The key to the situation is to be found in the cold storage warehouse. It may be possible, by placing a tremendously heavy tax upon goods stored beyond fixed periods, to compel the speculators to place them upon the market in such quantities and at such times as to prevent "corners" and extortion.

At the same time, the ingenuity of greed and avarice has nearly always been equal to the opportunities which offer themselves to evil men to take advantage of the helpless, and the people, if they secure relief, must get it through the services of public servants possessing high qualities of statesmanship and a patriotic desire to serve humanity to the fullest.

We talk much about the cruelty practiced upon the battlefields of France and in the villages and towns of Belgium and Serbia, and keep our eyes blind to the pitiable hardships in-

CITIZENS COMPLAIN

That Work On the Dover Road Is Moving Too Slowly.

CONTRACTOR GETS BUSY

And It Is Believed the Bad Places Will Be Quickly Improved.

At a meeting of the County Road Commission Thursday a number of citizens appeared before the Commission and entered complaints in regard to the condition of several roads in the county, due to the construction work now going on by the contractors, Montgomery, Perkins & Co. Mr. Perkins was present and the conference resulted in steps being taken to hurry up the work on the Dover road, which is in the worst condition. Several changes of grade have not been meted yet and the road is in no condition for winter hauling. Mr. Perkins has shifted forces from other roads to this one and the work will be pushed more rapidly. The matter was presented to the Commission by Messrs. James West and R. E. Cooper.

The Madisonville road is blocked, but plans are being made to get it opened soon. Work is progressing nicely on the Elkton road and there are no serious complaints on other roads.

An agreement has been made by which a bad hill on the Cadiz road this side of Shiloh church will be improved at once.

Inspector Vessels, who has been looking after the work here, has been relieved and C. A. Ligon will succeed him. Mr. Ligon is the inspector who looked after the contract work done by Mr. McQueary last season.

FIGHT HIGH COST OF LIVING

Mothers' Clubs to Petition The President to Embargo Exportation of Foodstuffs.

San Francisco, Nov. 24.—California grocers have jumped into the fight to keep down prices of wheat, flour, sugar, canned tomatoes and canned milk and the housewives of the state have been asked to co-operate by signing wholesale petitions asking for an embargo on these commodities. These petitions will be sent to every groceryman in California under the auspices of the California State Grocers' Association. At least a hundred thousand signatures are wanted to give the petitions weight when they reach federal authorities at Washington.

Mrs. W. T. Cleverdon, president of the Alameda county federation of mothers' clubs said that 3,000 club women of Berkeley and Oakland would sign the petitions to President Wilson to declare an embargo on foodstuffs.

"We are going to put a stop to this gamble on human life," she declared. "The monopoly of bread and butter is as outrageous and unnatural as a monopoly on the sun and air."

UNDERWENT OPERATION.

Miss Jackie Lunderman, of near Pembroke, underwent an operation at the Jennie Stuart Memorial Hospital Wednesday and her condition is very satisfactory.

RUSSIA LOSES DREADNAUGHT

Destroyed By An Interior Explosion It Sank in Shallow Water.

LULL ON BATTLE FRONTS

Except In Rumania Where the Teutons Are Still Pushing On.

London, Nov. 24.—The Teutonic allies in the Wallachian provinces are continuing their advance against the Rumanians. The operations there according to the latest German official communications "are progressing in accordance with our plans." Semi-official advices from Berlin are that Gen. von Falkenhayn's army up to Nov. 21 had taken 11,000 square kilometers of wheat soil in Wallachia and, with the capture of the railroad had shut off the communication of all the Rumanian troops west of Craiova.

Berlin records the reinforcement of the Russians on the eastern Transylvanian border, but the locality where they have arrived is not definitely stated.

In the Alt region Bucharest reports that the Rumanians are holding their positions.

Except in Macedonia, little fighting of moment is taking place. Here in the vicinity of Monastir and in the region between Lakes Presbo and Ochrida, battles of considerable proportions are in progress. North of Monastir, the Germans and Bulgarians have received reinforcements and are stubbornly resisting the further advance of the entente allied troops. Dobormir and Paralovo have fallen into the hands of the French and Serbs, according to Paris, while west of Lake Presbo the Italians have pushed their lines further forward. Berlin asserts that to the east of Lake Ochrida the Italians have been forced to retreat.

On the front in France with a return to better weather the artillery actions have become more violent. No infantry attacks have been reported.

Bad weather continues in the Austro-Italian theater and artillery duels alone have prevailed there.

Russia officially announces the loss of a dreadnaught. The statement issued reads:

"The Russian dreadnaught Imperatritsa Maria has been sunk by an internal explosion. Two hundred of the crew are missing."

MORE ROOM.

Provided For By New Milk House at Atkins' Dairy Farm Near Town.

A new milk room has just been completed on the dairy farm of C. R. Atkins, at a cost of about \$500, which will be an important addition to the sanitary equipment of that prosperous industry. Mr. Atkins' barns and milk rooms are a model of cleanliness, but the rapid growth of his business has made more room necessary and the new house, especially arranged, will be a great improvement in handling his business. It will be ready for occupancy in a few days.

AT PEMBROKE.

Mr. Frank C. Brown, representing the anti-saloon league, will speak at the Pembroke Baptist church tomorrow night at seven o'clock.

Two Sows Bring \$600.

John H. Williams, proprietor of the Ashbrook farm near Pembroke, recently sold two fine Duroc sows from his herd for \$600. One of the sows brought \$400 and the other \$200. These are unusually high values for sows, and the \$400 deal sets a new high record for sows at the Ashbrook farm. Both sows were of the famous Emperor strain.

SATURDAY, NOV. 25

Authoritative announcement that
legislation for an embargo on food-
stuffs would have a substantial back-
ing in congress did a good deal
Wednesday to nullify the greater part
of a sharp new advance in the price
of wheat. After rising in some in-
stances as much as 45-50c a bushel the
market turned weak and closed un-
settled at net gains of 1-8 to 1-7-8c
with December at \$1.83 1-8 to \$1.83 1-4
and May at \$1.88 3-4. Corn finished
1 to 1 1-2 to 1 5-8c higher and oats
were up to 1-8 to 1-4 and 3-8c. Pro-
visions closed irregular, varying from
5 cents off to a gain of 10 cents.
Highest prices of the day were reached
in the wheat pit soon after the
opening of business and before word
had been received from Washington
that Chairman Fitzgerald of the house
committee on appropriations was tak-
ing energetic measures to push the
enactment of an embargo.

In response to an appeal for the
mountain people of the South, four
representatives of 170,000 women of
Presbyterian mission societies in the
United States are on their way from
New York to inspect conditions in
Kentucky, North Carolina and Ten-
nessee. Their report will decide the
outcome of what is said to be one of
the most important campaigns ever
undertaken in behalf of the mountaineers.

If Chairman Fitzgerald succeeds in
lowering the high cost of living he
will make himself the most popular
man in the United States. His em-
bargo on foodstuffs strikes at the root
of the trouble. The country is being
robbed of its resources to keep a war
going that all the world is tired of,
leaving a trail of actual distress in our
own country. Fitzgerald thinks that
"America first" should be our motto.

The White Star line steamship Brit-
tanic, serving as a hospital ship for
wounded soldiers of the entente al-

cording to an official announcement.
The Britannic was sunk by a mine or
a torpedo Wednesday morning in the
Aegean Sea. There were 1,106 sur-
vivors, of whom about 28 were injur-
ed. Forty lives were lost.

Jack London, the author, died at

Wholesale petitions asking for an

sented to Congress when it recon-
venes Dec. 4. The food gamblers are

Even oysters have gone up this

USE "BULLET-PROOF" ROOMS

"Safety First" for Hotel Guests Ad-
vised Feature of Nogales, Tex.,
Hosteleries.

Bullet-proof rooms are an ad-
vertised feature of certain hotels in
Nogales, Tex., according to A. Em-
erson Jones of Minneapolis, a Bal-
timore guest, the Washington Post
states. "The El Paso and South-
western railroad," he said, "runs
through the city, just as the New
York Central runs through Syra-
cuse, dividing the city into two sec-
tions. But on the southern side
lies Mexico, and during the many
days of distress the zip of bullets was
a familiar sound to Nogales people
and to strangers within their gates.
Enterprising hotel folk conceived the
idea of making their guests safe by
shielding their southern exposure
rooms with sheet iron, and were not
slow to advertise this 'safety first'
thought. Consequently the hostel-
ries not so enterprising were speed-
ily depopulated.

SIZE OF DANISH WEST INDIES

Doubt as to the Exact Area of the
Three Principal
Islands.

Authorities have disagreed as to
the area of the Danish West Indies.
Even as to the three main islands—
St. Thomas, St. John and St. Croix
—there is no agreement on the ques-
tion of area, the National Geograph-
ic Magazine states. In order to get
a definite statement as to their size,
planimeter measurements of them
were made on hydrographic charts
in the offices of the National Geo-
graphic society in Washington, and
they show that St. Thomas is 28.25
square miles in area, St. Croix 81.25
square miles and St. John 19.97
miles in area, making a total of
129.47 square miles for the three
islands. Some authorities give the
area as 138 and some others as 142
square miles.

GERMS THAT COMBAT DISEASE.

By a coincidence the death of Sir
Victor Horsley occurred the day fol-
lowing that of Metchnikoff, whose
momentous discovery that the white
corpuscles had the power to destroy
certain disease-producing microbes,
profoundly influenced the great sur-
geon-neurologist's views on total ab-
stinence. Experiments carried out
after Metchnikoff's discovery con-
vinced Sir Victor that the consump-
tion of alcohol "even in tiny quan-
ties," lowered the body's resistance
to disease. The good phagocytes,
whose duty it is to play the sentinel
and destroy noxious bacilli, became
temporarily paralyzed under the in-
fluence of a very small amount of
alcohol, and this, in the opinion of
Sir Victor Horsley, sufficiently ex-
plained much chronic ill health and
infectious diseases.—London Chron-
icle.

THE LENGTH OF A WINK.

The time occupied by the several
phases of the movement of a wink
has been measured and it is found
that the descent of the lid takes from
75 to 91 thousandths of a second.
The interval while the eye is shut
was in one case only 15 hundredths
of a second. The raising of the lid
occupied 17 hundredths of a second

A MYSTERY.

ever got to be a schoolteacher."

EUPHEMISM.

tles" in the war reports. Thus is
the business of wholesale killing
dressed in the language of graceful
felicity.

A WIFELY WISH.

ing: "No, sir; I wish he was."

ISN'T THIS TRUE.

It may be all wrong to go inside

called in physicians to treat my case,
but without relief. Finally, I tried
Cardui, and it gave perfect satisfac-
tion. I recommend it to every sick

TRADEMARKS FOR LUMBER.

The work of standardization in all
other building materials has devel-
oped so thoroughly that contractors
have little difficulty in securing just
the quality desired in steel, cement,
lime, roofing and various other es-
sentials. In structural timber, how-
ever, it is as yet difficult to get any
positive standards. The Forest Prod-
ucts laboratory has been advocating
branding building timber with a spe-
cial trademark which shall indicate
its quality as thoroughly as does the
trademark on other building sup-
plies. The American Lumberman's
association is co-operating in this
movement, and now several of the
largest lumber mills in the country
are securing trademarks for their
different products which shall be ab-
solutely indicative of their quality.

ECONOMIC SOLACE.

"The prices demanded for almost
everything are startling!" exclaimed
the old-fashioned citizen.

"Yes," replied the ready reasoner;
"but think what a lot you save every
time you decide not to buy some-
thing!"

A UNIVERSAL FAILING.

Another thing which is the mat-
ter with the country is the wide pop-
ularity of getting money as com-
pared with the wide unpopularity of
earning it.

PLAYING SAFE.

A woman says she loves to play
solitaire because she can cheat with-
out getting caught at it.

DISCOURAGEMENT.

Neither let mistakes nor wrong
directions discourage you. Let a
man try faithfully, manfully to be
right; he will grow daily more and
more right.—Carlyle.

FIRELESS COOKERY.

No Husband Is Perfect.

Don't expect all the virtues in one
man, remarks a writer in the Woman's
Home Companion. If he is good na-
tured he may be lazy; if he is schol-
arly, he may be cold; if he is thrifty,
he may be stingy; if he is generous,
he may be wasteful; if he is smooth,
he may be deceitful. The man who
charms you with his immaculate ap-
pearance is likely to be something of
an old maid; the man who is careful
to pick threads off your skirt is prone
to pick flaws in you; the man who
takes an undue interest in the selec-
tion of your hats may take an undue
interest in the bill which comes home;
the man who, before marriage, jumps
to open the door, lest your fingers be
contaminated by the knob, may after
marriage allow those same fingers to be
contaminated by the washboard.

Figures Won't Lie.

Two can live cheaper than one, possi-
bly, if the one gives up a lot of the
things he used to think made living
worth while.—Philadelphia Inquirer.

Unique Among Magazines

Probably Joe Mitchell Chapple knows
personally more famous people than
any other man in the world.

—The London Daily Mail, Paris Edition

OTHER magazines have their place in fiction and
fact, but the National with Joe Chapple at the
helm is different. Every month for twenty years he
has made a trip to Washington to obtain material
for his "Affairs at Washington" department. You
can hear him 12 times a year through the pages of
the National Magazine
and enjoy the many timely, interesting talks and
special articles on the big men and affairs of the day.
The National follows no rut. It is the very life
of the magazine world. It takes you over wide
stretches of territory. It sets you down suddenly
face to face with a big fact. It keeps close to human
impulses. People usually like it. It "boots" life
at every angle. It is not a palliative, but a blood
and iron tonic to every person—man, woman,
child. No matter where you live, the National
will do you good. Write today for a copy and
until you have read the maga-
zine, size and know you like it. For
\$1.00, every four months, you can become a
regular subscriber to the National Magazine.

REMARKABLE INTRODUCTORY OFFER

FOR THIS VISIT ONLY

\$5.00 EYE GLASSES at \$1.00 a PAIR

The National Optical Co., of Louisville, wishes to announce that their specialist and his assistant will be in Hopkinsville, at the Latham Hotel, December 4th, 5th, 6th, and 7th AND EVERY NINETY DAYS THEREAFTER.

Our Object

In making this remarkable offer of \$5.00 glasses for \$1.00 a pair is simply to introduce our service in your community as well as our Crystal Lenses. Our Crystal Lenses have met with a great success by many persons who are now wearing them and are meeting with the same results wherever they are introduced.

Our New Invisible Bifocles Will Not Confuse You

You can see near and far with above Lenses

REMEMBER

That the above offer of \$5.00 eye glasses for \$1.00 a pair is for this visit only. Special prices on all other classes of Optical Work. Regular prices will prevail after our first visit to Hopkinsville.

Beware of persons who call at your home and claim to be representing us, as we do not have representatives, but our Specialists at the Hotel as we advertise. All orders taken delivered by insured parcel post.

RECEPTION ROOMS, HOTEL PARLOR.

We would ask you not to let our remarkable offer conflict in your mind with other such offers that have been made at Drug stores and other such places by men who were not responsible or established anywhere, nor do they claim to be. As to ourselves we are located and established both. We guarantee our work and glasses both for five years in writing and as to the responsibility of our guarantee we will give bankable reference to those desiring same. The glasses we are advertising are the kind that usually sell at most optical establishments at \$5.00 and in some cases even more. This is the first time to our knowledge that such an offer has been made by responsible people who will stand back of their work and who cannot afford to be branded as fakirs, as some have. We will make these prices THIS VISIT ONLY and no more. Call and see us and we will explain how these prices can be made. You are not obliged to buy glasses and all EXAMINATIONS ABSOLUTELY FREE.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists. Beware of cheap imitations. Take Hall's Family Pills for constipation.

"I DON'T SUFFER ANY MORE"

"Feel Like a New Person," says Mrs. Hamilton.

New Castle, Ind.—"From the time I was eleven years old until I was seventeen I suffered each month so I had to be in bed. I had headache, backache and such pains I would cramp double every month. I did not know what it was to be easy a minute. My health was all run down and the doctors did not do me any good. A neighbor told my mother about Lydia E. Pinkham's Vegetable Compound and I took it, and now I feel like a new person. I don't suffer any more and I am regular every month."—Mrs. HAZEL HAMILTON, 822 South 15th St.

Oranges May Be Cheap.

Washington, Nov. 24.—The commercial orange crop of the United States shows a probable increase of 2,635,000 boxes this year. An estimate issued yesterday by the Department of Agriculture places the crop at 23,835,000 boxes, of which the California production is 17,500,000 boxes, or 2,450,000 more than last year, and that of Florida 6,335,000 boxes, or an increase of 185,000. The Florida grade fruit crop is estimated at 1,900,000 boxes, a decrease of 100,000 boxes from last year.

A Lot of Women.

Topeka—One hundred and fifty-one women out of 255 women candidates for county offices in ninety-two of the 105 counties in Kansas at the recent election were elected, according to reports received in Topeka. MAY ABOLISH LEAP YEAR

Movement on Foot Which Will Be of Considerable Interest to Great Numbers of People.

For the benefit of those individuals who in February celebrated their first birthday since 1912 and who may feel more or less resentful because they have only one birthday while everyone else is having four, let this be a word of cheer. They may regain their lost birthdays.

If a group of volunteer calendar reformers have their way, February 29, 1916, will go down in history as the last February 29. If the European war could have been postponed a year or two there possibly would have been no February 29 this year.

The war interrupted the international congress to revise the calendar, which had just been called to do away with leap year, unequal months and other mistakes generally attributed to Julius Caesar and Pope Gregory XIII.

This congress was to have rearranged the whole calendar into 13 months of four weeks each. Every month would begin on Sunday and end on Saturday. Thirteen months of 28 days each would account for 364 days of the year. The extra day would be tacked on the end as a world holiday.

Now, for the February 29 folk. They will regain a birthday, for the reason that the whole calendar will be jumbled and there will have to be a new deal of birthdays for everyone.

Popular Mechanics Magazine

Three hundred and thirty illustrations and 200 terse articles combine to make the December number of the Popular Mechanics Magazine one of extraordinary interest. The legal execution of a man-killing elephant, which occurred recently in the state of Tennessee, is depicted on the Magazine cover. The illustrations cover a wide range of subjects, including the aerial tranway over Niagara whirlpool, the destruction of a Zeppelin in mid-air by an aeroplane; the new bridge joining North and South Portland, Me., New York's street-car strike; ingenious advertising methods and devices, etc. Among the war pages is photograph of one of the British armored "tank" cars about which there has centered so much interest.

In "Bringing Down a Zeppelin," an eye witness of a recent Zeppelin raid, Lewis R. Freeman, gives a vivid account of the raid, which culminated in the destruction of one of the huge airships. Numerous cuttings of the manuscript by the British censor are indicated and, of course, rouse one's curiosity. The illustrations accompanying the article are of remarkable interest.

The American Magazine.

David Grayson returns to the December American Magazine with the first of a series of stories. It is called "Great Possessions." Charles M. Schwab has written an article which explains his system of profit sharing. He has named this article "My 20,000 Partners."

"How a Great Hotel Man Handles the Human Race" is the story of George C. Boldt. There are many interesting tips in this article. "What Will Power Did for Me" tells the story of a boy in a poorhouse who made good when he got into the world. "Smith of Iberia" is an interesting tale about the struggles of a man to make good in the field of education. Walter Prichard Eaton contributes an article about the theater in which he asks if melodramatic rubbish is increasing. Edna Ferber writes about "Illinois."

The fiction is unusually good this month, containing humor, love, and adventure stories. Arthur Train, Julian Rothery, and Jack Lait are some of the contributors. "Cinderella Jane," the new serial continues, and the Interesting People and other departments are fully up to the standard.

SMALL TRACTOR IS FAVORED

Profitable Implement If Enough Land Is Cultivated to Use It Economically, Say Users.

The farm tractor is generally a profitable implement if enough land is cultivated to use it economically. This is the opinion expressed by three-fourths of the two hundred tractor users in Illinois to investigators for the United States department of agriculture. About one-third of the men in this list increased the acreage, on an average 120 acres to the farm, after buying the tractors and finding that they did not have room to use them to the best advantage.

WORTHY OF REMEMBRANCE

By ELSIE SEE.

"Talk about the quiet of a village," muttered Larry Elliott, as he sleepily arose on the second morning of his vacation at Anglersville, "but if there's a quiet moment from the time the first robin chirps at daybreak until the village band quits practicing at midnight I haven't been able to locate it."

A few moments later Larry was out for a walk before breakfast. Ignoring the narrow strip of concrete sidewalk, he was swinging along in the middle of the street when he gave a low, indrawn whistle, for coming toward him from the dusty road which led down by the railroad was a slim girl in a soft white waist and khaki skirt. The tints of her copper-colored hair blended with the brown-centered yellow daisies she carried, and Larry's delighted admiration shone in his frank brown eyes.

Just then the village quiet was broken by the excited yells of a small boy whose three cows being driven to pasture decided to bolt their keeper's care and dash back to the lot where their lately weaned calves stood bawling. The girl turned her head and took in one glance at them, but stood motionless with fright. Larry bounded to the girl's side. With one hand he took hold of her arm and with the other he waved his Panama hat wildly back and forth in the faces of the cows, whose lumbering movements came to a sudden halt.

"Thank you for rescuing me," Her voice was a bit trembly. "I've had a foolish terror of cows all my life, though never before have I had any real reason to fear them."

"Glad to be of service," said Larry, and hoping to prolong the conversation he ventured to add, "For fear the ogres renew the attack at some other point on your journey, won't you let me go along to wave them away again?"

"Ogres are as nothing to the tongues of village gossips, Sir Knight of the Panama," said the girl demurely.

"Oh, bother the tongues and the thousand other things in this burg which won't keep quiet."

"But every moment we stand here makes material for those tongues," said the girl, taking a backward step, "so I must move on. Thank you, again."

"For your sake I'll move on, too, but if I can find a way to meet you according to the ethics of the gossips, have I your permission?" Larry's eyes were pleading so earnestly that the girl smiled and pulled a long-stemmed daisy from the bunch she carried.

"Yes, and here's a mascot," tossing him the flower. "May it bring you luck!"

"Would that I had been bidden to call upon her instead of upon the prim spinster who was my grandmother's boarding school chum," Larry sighed at the thought, but stoically drew from his pocket the note of introduction his grandmother had addressed to Miss Arabella P. Mortimer.

He set out that afternoon expecting to be received in a darkened drawing-room by an oppressively dignified spinster, and his expectations were fully realized. Miss Mortimer was just as he had pictured her. Suddenly the middle-aged servant who had admitted Larry reappeared at the doorway with a frightened expression.

"Begging your pardon, Miss Mortimer," began the woman, talking very rapidly, "but Miss Penelope has fell from the cherry tree and hurt her ankle most awful!"

As they hurried through the orchard toward the cherry trees along its farthest slope, Larry saw a white-clad woman seated on the ground holding her left ankle with both hands. Larry had a thrill as he recognized the girl of his early morning adventure.

"Auntie, I'm sorry to cause you such anxiety," said Penelope.

"But, Neppie, dear, are you badly hurt?"

"I think not, though it does hurt when I try to stand."

Miss Mortimer looked anxiously from her niece to Larry, and remembered that they had not been introduced.

"Mr. Elliott, pardon me for not presenting you to my niece, Miss Bachelor; Penelope, Mr. Elliott, the grandson of a dear friend of mine."

A little later, as he was supporting Penelope on her slow journey toward the house and Miss Mortimer went on in advance to prepare a poultice for the injured ankle, Larry took from his pocket the daisy that Penelope had given him that morning.

"This has indeed proved a mascot," he said, "though I'm sorry that both my meetings with you have been associated with something disagreeable."

"Isn't it rather that your appearance each time helped me out of a disagreeable situation?"

"It is kind of you to put it that way, but I hope we shall meet under delightful circumstances so often that all disagreeable ones will be forgotten."

Penelope was silent for so long that Larry feared he had been precipitate, but when she spoke very softly, he was reassured.

"I'd rather remember all that has happened today than to forget the delightful part of it," she said. (Copyright, 1918, by the McClure Newspaper Syndicate.)

WAR! What Is It All About?

HAS the whole world gone stark mad over a very foolish and trivial question? Are swords rattling, cannon rumbling, mailed armor glistening just because Russia wanted to show her love for the little brother—Serbia? Tear aside the curtain of Europe's politics and see the grim and sinister game of chess that is being played. See upon what a slim, yet desperate, excuse the sacred lives of millions are being sacrificed. Read the history of the past one hundred years, as written by some of the greatest authorities the world has ever known, and learn the naked, shameful truth. Just to get you started as a Review of Reviews subscriber, we make you this extraordinary offer. We will give to you

FREE—"Europe at War"

A big book and over 300 pages, size 10 x 7 inches, handsomely and durably bound in cloth, containing the dramatic history of the great events leading up to the present time; over 50 important and timely special articles by experts on the different phases of the conflict; hundreds of graphic pictures, portraits, photographs, diagrams, specially drawn war maps, illuminating statistical records, copies of official documents and diplomatic messages exchanged between the powers—a clear, vivid, accurate, permanent, interesting and valuable record—a record which once seen you will not willingly be without. Europe's past and present are here dramatically pictured and presented. Hundreds of illustrations graphically tell their own stories. More fascinating than any romance, here is a history so vivid, so dramatic, so stirring, so fascinating, so realistic, so wonderfully presented, so thrillingly told that it leaves an indelible impression.

Your War News Clarified

It is not enough to read the daily news reports. Your ability to comprehend conditions and to discuss them rationally depends on a true interpretation of the meaning and the "reason why" of events. In your mind you must bring order out of chaos and the "Review of Reviews" will do it for you.

THOUGHTS TURNED TO HOME.

The story is told of a well-known Broadwayite who had his office under the canopy of a theater and who recently went abroad. He visited Rome and stood under the Capitoline and looked down into the heart of the ancient city.

He saw the ruins of the once mighty forum gleaming coldly white at his feet under the clear Italian moon. There were visions to stir a thousand memories—memories of triumphant, gorgeous Caesars, stately marble temples, silver-spoken orators, and rich-worded poets.

After watching the scene for about a half-hour, he grew restless, and then, turning to a friend, sighed and said: "Gee, I wonder what the fellows are doing on Broadway tonight?"

THE PLEASURE OF YOUTH.

A public schoolteacher once put this question to her pupils:

"Which would you rather have—three bags with two apples in each bag, or two bags with three apples in each bag?"

"Three bags with two apples in each bag," was the surprising answer given by one lad, while the rest of the class was struggling with the problem.

"Why, Harry?"

"Because there'd be one more bag to bust."

STRONG LANGUAGE.

Crawford—I hate people to talk about the weather.

Crabshaw—I don't blame you. This year what they say isn't fit to hear.—Town Topics.

ITS IDENTITY.

"We have handsome public baths in Kansas City," said a resident.

"I'll show you—"

"Eh-yah!" interrupted his country cousin, indicating a passing motorcycle with a side car attached. "There goes one of the bathtubs now!"

ONE OF THE SIGNS.

"Are you sure this is a fashionable resort?"

"It must be. Nearly everybody you meet laments because the war makes a trip abroad quite out of the question."

WISE BIRD.

In the private zoo of a resident of Lenox, Mass., is a parrot from Panama which has a vocabulary of 75 words.

Eggs Baked in Ramequins.

Butter the ramequins and line with bread crumbs. Break the egg and drop in whole. Salt to taste. Cover with bread crumbs. Add two tablespoonfuls of milk and a small piece of butter, and bake.

A Useful Hint.

Let the kettle in which mush has been cooked stand for five minutes before taking up. Then no hard residue will be left sticking to the bottom of the kettle to be soaked off and thrown away.

To Remove Egg Shells.

If, when breaking eggs into a bowl, a piece of shell gets into the egg just touch it with the half shell and it can be easily removed.

Mustard for the Hands.

Ground mustard is excellent for cleaning the hands after handling onions and other strong smelling things.

Mrs. John Drew Better.

McLeansboro, Ill.—“About five years ago,” says Mrs. John L. Drew, of this place, “I was afflicted with pains and irregularity every month. I suffered continually, was weak and despondent, and unable to do my housework. I took Cardui, and in one month, I felt like a new woman and worked hard all summer. I am now in perfect health, and recommend Cardui to all suffering women.” Every day, during the past 50 years, Cardui has been steadily forging ahead as a result of its proven value in female troubles. It relieves head ache, backache, womanly misery and puts fresh strength into weary bodies. Try it.—Advertisement.

MAKE DEITY OF ROTHSCHILD

Jews in Saloniki Believe Wonderful Things of the Head of Great Financial House.

The children, of whom there were four little ones, were likable, and fiercely intelligent, as is often the way with Jews. Nina, the fourteen-year-old girl—her mother had married at fifteen—used to say, “I am not pretty—I am too thin.” She had no illusions about this world or the next. “We believe in God,” she would chaff me, “while you believe in Jesus Christ.” To believe in Jesus Christ was with her rather a piece of amiable folly than an act of faith. “I’m not so sure that I believe in God after all,” she sometimes admitted. They all, however, believed wholeheartedly in a mythical person called “Rothschild.”

“Rothschild,” so I learnt, dwelt in London and spent millions on his lightest whim. He had a horse that cost a million, he had pleasures and palaces; in short, he was “it.” If I had told them that the present Lord Rothschild is a bearded giant with a passion for natural history and of a retiring and quiet habit, they would never have believed me. Out here he is a symbol rather than a human being. Even Eli, the third boy, who believed in nothing else, believed in Rothschild.—Albert Kinross, in Atlantic.

Didn't Like Hirsute Adornment.

One Sunday Helen's father and mother took her to church, sitting just behind a man who had red whiskers. Helen would not look up, but kept hiding her face, and when her mother insisted on knowing what was the matter said: “I'm afraid of the man wif feathers on his face.”

ORCHESTRA CHOIR NEXT

Now Touring Middle West
With Great Success---
Here November 28.

Organized by Bohumir Kryl,
Jaroslav Cimer, Trombone
Soloist, Mme. Caratelli,
Soprano.

The Chicago Orchestral Choir, a new idea in lyceum companies, is now touring the Middle West with great success. This company was organized for its tour by Bohumir Kryl, the famous band leader and cornet soloist.

It comes to the Tabernacle next Tuesday night.

One portion of the evening's program is given up to stringed instruments, the ensemble including three violins, one viola, one cello, and one bass viol, also piano accompaniment. Another part of the program is rendered with the following ensemble of instruments: cornet, clarinet, French horn, euphonium, trombone and tuba. There are also instrumental solos, duet and quartets, and vocal solos.

Jaroslav Cimer, whose solos on the trombone are a feature of each evening, was born in Pilsen, Bohemia, the land from which many of our greatest musicians come. He has, however, spent the greater part of his life in America. Ten years ago Mr. Cimer played with Innes' band in concerts in Orchestra Hall, Chicago. He has also played solos with Sousa's Band and later with Bohumir Kryl's Band. For three winter seasons he was trombonist in the Kryl Concert Company. In 1915 he directed the Cimer Band over the entire five day circuit of the Redpath Chautauqua.

Vocal solos on the program of the Chicago Orchestral Choir are rendered by Mme. Helen Caratelli, soprano, of whom the Milwaukee Sentinel says: "She sings with a purely musical tone into which she imbues color and dramatic feeling, and there is great power in the upper register without any loss of quality."

PROBE DATE TO BE FIXED

Federal Commission And
Publishers Discuss Forth-
coming Inquiry.

Washington, Nov. 24.—date for further hearings in the Federal Trade Commission's investigation of the advance in news print paper prices was discussed by members of the commission and officers of the American Newspaper Publishers' Association. Afterward it was said a time would be set for the hearings within a few days.

Neither members of the commission nor the publishers would discuss the line the new hearings will take, but it is understood paper manufacturers, as well as the publishers, will be heard, and that further efforts will be made to determine if there has been a combination to control prices. Since the conclusion of hearings held early in August the commission's investigators have been at work in the paper mills, and it is understood will

present new facts.

Publishers charged at the previous hearings that paper makers had combined to raise prices and promised to place in the hands of the commission evidence to support their charges. Paper makers declare high prices are due to an enormous increase in demand and insist that the manufacturers are not making a fair return on their investments. They estimate that consumption has increased 20 per cent. in a year, and assert that manufacturing costs have advanced.

Those who conferred with the commission were Frank P. Glass, vice president of the publishers' Association; L. B. Palmer, of New York, secretary, and A. G. McIntyre, of New York, a paper expert employed by the association as adviser. Mr. McIntyre is said to be of the opinion that new mills must be built before the situation is remedied.
